FINANCIAL.

7 3-10 Treasury Notes.

The Third National Bank of Springfield,
Fiscal Agents of the United States,
NO. 2 BARNES' BLOCK,

INVITE the attention of the public to the superior advantages of this security.

It is open as much to men of moderate means as to capitalists, since the notes are of the denominations of

$50, $100, $500 and $1000.

The *Interest*, at 7 3-10 per cent., is payable *semi-annually* in currency, on *coupons* attached to the notes.

The notes are dated August 15, 1864, and after August 15, 1867 are *convertible into 5-20 gold bearing bonds.*

The government propose to issue no more gold-bearing bonds except on conversion of the 7 3-10ths notes now offered, and this is the *only existing mode by which the future advantage of a six per cent gold-bearing bond* can be secured *by subscription and at par.* The *existing gold-bearing sixes* command a *premium on their face* (deducting accrued interest) of **8** *to* **10** *per cent.*

Bonds on hand for *immediate delivery.*

Down Goes Your House!

No. 2.

"WELL, Ladd, what are you going to do about it?" In reply to all such interrogatories I will relate the story of Col. Crockett and the Coon. He had treed a coon and was about to fire, when the coon asked him if his name was Col. Crockett. On his answering that it was, the coon said—Well, you needn't fire, I'll come down without. I'm in hopes to fetch him without firing; if I don't in a year or two, then I'll fire. Come, who will buy the next house? I have a good assortment left, from which customers may select, varying in price from $300 to $5,000; and if what I have on hand don't suit, I can have one built to order in about ten days. Two very desirable ones on Dale Avenue. Please give me a call before purchasing elsewhere. Masons and others in want of sand, must not forget that the Deposit in my Bank is almost endless; the loam and clay in quantities to meet all demands. F. R. LADD,

Speech of General Butler.

Gen. Butler was among the speakers at the celebration in Washington on Monday evening. The following is his address:

FELLOW-CITIZENS: I am profoundly grateful and thank you once and again that you have called upon me to join you in your congratulations upon this great triumph of our arms, which conquers and subjugates finally a most heinous Rebellion against the American people. The surrender of Lee and his army puts an end to this traitorous war waged to overthrow the government. Even now while the heart turns in gratitude to God for His good providence, while the soul burns with gladness at the result which, rightly understood, renews the life of the nation forever, new vital and controlling questions, to be settled in the immediate future, arise and mingle perforce with our joy. There are four classes of men in the rebellious States. What shall be done with them? What shall be done with the men educated in the Military Academy at the public expense, sworn to protect our flag? Obtaining livelihood, honor and promotion under it—the children of the nation, who without justification, excuse or palliation even, betrayed their country, forfeited their honor, struck down their flag, used the very knowledge obtained at the nation's school to break down the government which nurtured them, and the nation which honored them, and have now ceased an unholy strife, which has cost millions of money and hundreds of thousands of lives, because they have been beaten, conquered and subdued by the valor of our soldiers, whose comrades they have starved in loathsome prisons. [Cheers and cries of "Hang every one of them; hang them; give them the rope."]

In the future the danger to our liberties can come only from the ambition of those in the army, who may conspire against the life of the Nation. Shall we not by example teach every officer who deserts his flag that he shall suffer the same penalty for desertion which the government and the law has enforced upon so many of our soldiers for the same crime. What shall be done with those whom the people North and South once delighted to honor. Who, with the oath of God upon their lips, but treason in their souls, sat in yonder Capitol in the seats of law-givers, day by day, and plotted how to destroy their country—even while, in the name of the Constitution, they claim to sacrifice at the altar of her most cherished liberties. Shall they ever again have the power or place to vote or destroy their country. [No, no—never, never.]

Shall they even be allowed to have the sacred, and honored, and glorious privileges, now made sacred by the blood of hero patriots shed to save them from acts of such men, that of American citizens? [No, never, traitors; hang them.] The next class—the soldier in the ranks of the rebellion: misled, deceived by false statements and arguments and prejudices until their judgments were overborne, conscripted and driven until their wills were overcome into the support of the rebellion, but who even in a bad cause have illustrated the valor of the American race—are we not ready to say to them: "Father, forgive them, they know not what they do," and to receive them again as brothers of us and with us. [That's it! Good! That's the talk!]

Still another class. Those of the South who have ever welcomed the flag with shouts of gladness, who have never failed to rejoice in Union victory, who have never lost faith in the Union cause, who always have concealed, fed and cared for the Union prisoners escaping from the cold; sickness, starvation and death of Libby and Andersonville, guiding them faithfully by the North Star through swamp and forest to liberty and life; who have joyfully taken up arms with us and laid down their lives in our cause; who were the first to enter Richmond, the true Union men of the South. [Cheers.] What shall we say to them? Shall we not say liberty and equality of right under the laws forever. [Yes, yes, and cheers; good, good.]

Then we are agreed. Condign punishment to the military traitor who deserts his flag for Rebeldom, disfranchisement and safe keeping for the civilian using his perjured place to betray his country; the right hand of fellowship for the misguided and deceived victims of the rebellion, and equal rights for the black man under the law. [Cries of "Agreed, agreed, agreed!"] Then I think that will do. [Cries of "Go on, go on!"] Let us also be thankful to the good God that while this war has cost so much treasure and blood, it has so established one power among the nations of the earth that the shedding of American blood upon American soil may now cease forever, and in our dealings with the nations of the earth we can adopt, without fear of war, the motto of Jackson, "Ask nothing but what is right, and submit to nothing that is wrong." ["Good, good!"] And now good bye. [Cries of "How about Maximilian."] I beg your pardon, I am not your Secretary of State, and have no power to direct your foreign affairs. [Great laughter.] Good bye. [Laughter and cheers.]

New England Items.

Five children, sons of Wm. E. Wright, of Danbury, Conn., were thrown from a wagon on Thursday of last week, the horse taking fright, and one of them, eight years of age, received a fracture of his skull which caused his death on the Sunday evening following. The other children, who are all under ten years of age, were more or less seriously injured.

Three of the governors of the New England States are named Smith—Gov. Smith of Rhode Island, Gov. Smith of Vermont: and Gov. Smyth elect of New Hampshire.

C. H. Colegrove, of Charlotte, Eaton Co., Mich., has recently purchased in Shoreham and Cornwall Vt. a car load of sheep for which he paid over $6,000. Among these were a few choice ewe lambs, purchased of Edgar Sanford, at $200 per head, which Mr. Colegrove designs to take home and shear at a public shearing, to be held at his house the coming June.

West-Pawlet, Vt., sends off more potatoes in a year than any railroad station in the country, the amount some years reaching 160,000 bushels. They are sent in lined freight cars heated by stoves. The yield last year was from 200 to 400 bushels of marketable potatoes per acre, and the average price has been seventy cents per bushel.

Rev. D. A. Wasson has accepted the call of the Twenty-eighth Congregational Society, Boston, to become its minister in preference to that of Cincinnati. He begins his services on the first Sabbath in May, and Wendell Phillips will assist in the installation services.

The Committee on the Conduct of the War will soon make a report upon the Campaigns of General Banks. This report will include statements by the General himself, in regard to his three prominent expeditions while in command of the department of the Gulf, viz., those to Texas, Port Hudson, and the Red River region,

THE DAILY UNION.

Springfield, Mass.

Saturday Evening, April 15, 1865.

Assassination of President Lincoln.

From a state of unexampled popular exhilaration and rejoicing, the country is suddenly plunged into the deepest grief and foreboding. Abraham Lincoln, the brave hearted, fearless and honest leader of the hosts of freedom — our political Moses through the Red Sea of civil war and carnage—died this morning at the hands of a cowardly assassin. The revulsion of feeling shocks and unnerves the country. It is the last and most atrocious act of the dying rebellion. Just four years to a day from the lowering of the flag at Sumter, the President was stricken down by a mortal wound, dealt by a fit representative of the lawlessness and barbarism of slavery, and the Republic now as then is in suspense and apprehension.

In entering upon the new era of peace and a regenerated government, the country is ruthlessly deprived of the services of a chief executive who seemed, of all other men, best fitted both by nature and experience to forecast the horoscope of our national future and pilot us through the remaining dangers of the subsiding storm of domestic strife. Indeed, we can scarcely realize that the hand which signed the proclamation of emancipation is palsied in death, and that the mind which has been so incessantly alive to the best interests of the whole country, shall no longer be cognizant of the weal or woe of the Republic. It is a sad day for us all, and to our short-sighted visions a calamity of no common magnitude. How can we spare him at this peculiar crisis of our history, are questions which fill the minds and oppress the hearts of the people. But now, as ever, during the darkness and gloom of the pending strife, our trust must be in the wisdom and justice of Jehovah.

The thought that the vast interests of the government must now be committed into the hands of a Southern man, belonging in a State out of the Union; a man who has disgraced the second office in the gift of the people by disgusting inebriety, of rash and headstrong impulses, adds greatly to the heaviness of the national sorrow. The event may reveal to us the wisdom of this mysterious Providence, but at the present time we shrink instinctively from contemplating the possibilities of the future. The contrast between honest, simple-hearted Abraham Lincoln and drunken, scheming Andrew Johnson will appear, only too soon, we fear, for the repose of the country. At the best, we part with a tried and faithful servant in whom the country reposed the utmost confidence, for an untried man whose antecedents afford no brilliant or even cheerful promise.

If this fearful tragedy shall serve in the least to elevate the mawkish sensibilities of our civil and military officials, in relation to the treatment of the defeated Southern malefactors, some good will have been accomplished. After such an exhibition of southern treachery and malignity, who would interfere with the due course of justice or advocate hereafter leniency to men who have forfeited every claim to consideration. We have seen enough of the fruits of rebellion to convince us of the implacable hatred its authors and abettors cherish towards the Republic. It is hazardous to parley with men who are utterly destitute of honor. Let justice, full and absolute, be meted out to them. In pursuing this course we reach the only safe path.

☞ By the death of Abraham Lincoln, Andrew Johnson is now, by constitutional provision, acting President of the United States. He was born in Raleigh, N. C., December 29, 1808, and is consequently in his 57th year. He was formerly a democratic politician, and served as a member of the national House of Representatives from 1843 to 1853. In this latter year he was elected Governor of Tennessee, and again re-elected in 1855. In 1857 he was elected United States Senator for a full term, ending March 3, 1863. During the early stages of the rebellion he took part with the government as against its enemies, and did effective service in the debates which preceded the withdrawal of the Southern members. He was subsequently appointed Military Governor of Tennessee.

Interesting Localities.—The interview between Gen. Grant and Gen. Lee before the surrender was at the residence of W. McLean Esq., in the village of Appomattox Court House.

The surrender of Lee's army was made at a little village known as Clover Hill, eighty miles west of Richmond, and forty-three miles east of Lynchburg. The two armies reached this point on the race to Lynchburg.

Grant's headquarters, when he replied to Lee, were about four miles west of Mallard's Church, which is about five or six miles from the Appomattox Court House, and he sent Lee word that he would push towards the front and meet him.

Honest Rebel Merchants.—Some of the Richmond merchants are honest men at least, whatever suspicions we have as to their loyalty. A firm in Philadelphia, according to the *Telegraph*, lately received the following letter:

RICHMOND, April 7, 1865.

Messrs. * * * * :

GENTS—We write to inquire how our account stands with you, and if we owe you anything, please let us know the amount, and we will send it to you in gold, with interest from the day it was due. The late fire has caused us to lose a great deal, but we are happy to state we have a little left us, and if the United States Government don't take it, we will be able to pay everything we owe in a short time.

Yours truly, W. B. JONES & Co.

LOCAL.

The Sad News in this City and Vicinity.—The sad news of the death of President Lincoln, has cast a deep shadow of gloom over this community. Sadness is depicted on every countenance which tells of the deep and unfeigned sorrow of the heart. The intelligence is so awful and so unexpected that everybody is struck dumb with astonishment and grief. The heart is too full of anguish and vengeance to find expression in words. Every-one, while he weeps for the loss of the President, swears with the same breath, death and extermination to traitors. The public grief in this city was fitly expressed by the tolling of the bells, displaying the flags at half-mast, trimmed with crape, while most of the public buildings, blocks and many private residences are draped in mourning. Work has been suspended in most of the shops, and everybody is paralyzed with overwhelming grief.

A dispatch from Northampton received at 11 o'clock, states that all business is suspended the bells giving forth their solemn peals, and all buildings, private and public, draped in mourning. Everywhere in the valley the news is received with universal and unfeigned sorrow.

Real Estate Changes.—The Connecticut River Railroad has bought two acres of land lying east of the Plainfield road, so called, of Angeline Colby, for which $2000 was paid.

John Gadney has purchased of D. C. Horton the cottage on the corner of Howard and Bay streets for $1400.

Martin Wesson has bought of R. G. Shurtleff an undivided quarter of the Hampden House, for which he paid $8000.

One-half of Burt's Block, on Main street, has been purchased by Elijah W. Bliss for $13,500.

J. C. Robinson has bought the Edward Cordis homestead in Longmeadow, for which he paid $12,000.

Mrs. Dr. Bridgman has sold the house on Spring street, lately occupied by Mr. Seelye, to Edwin Dickinson, of the Union Paper Company.

A. M. Knight has purchased of John F. Sprague his house and lot on Bowdoin street for $4,600.

Royal Harrington has bought a lot and shop on Taylor street of James E. Russell for $2000.

A New Laundry.—Messrs. J. H. Gardner & E. C. Davis, having formed a copartnership, will open a first class laundry next Monday in the old Bontecoue house on Barnes' lot. They have fitted up the establishment in good shape, and engaged an experienced laundress from New York to take charge of it. An institution of this kind has long been needed here, and with proper management cannot fail of meeting with abundant success. The proprietors, Messrs. Gardner & Davis, are young men of enterprise and business capacity, and in the words of another, consider success a duty.

Capt. Moorehouse gives the other side of the story told by the deserter, John Murrill, confined in the jail in this city, which goes to show that he is not suffering innocently. He served his time out in the 49th Mass. regiment, then enlisted in the 1st Mass. cavalry, from which he deserted, then went to Poughkeepsie and enlisted in the 176th New York, when he again deserted, and enlisted for the third time in the 11th Vt. regiment, and is now safely lodged in Fort Warren.

Indecent Exposure.—We are informed that an animal of the male gender occupying a room in a certain boarding house on Main street, has for a long time been in the habit of parading himself *en dishabelle* before an uncurtained window, at different times of the day and evening, exposing his vile nakedness in the most repulsive manner. If he is so destitute of self respect and shame as to put to the blush the lower orders of animals, he should be brought to his senses by an application of one of the statute acts.

Mr. A. L. Chapin, the popular architect of this city, has just completed a set of plans for a magnificent brick block, four stories high, to be built in Great Barrington, the present season. The upper part will be devoted to a grand Masonic hall, and the lower stories will be used for stores.

There was a whisky row at O'Keefe's Irish saloon near the toll bridge yesterday afternoon, which terminated in the interference of the police, and the arrest of three of the principal combatants.

Conductor Whipple does not run on the "New Haven and Westfield" road as the types had it yesterday, but on the Hartford and New Haven road. A slight difference.

The attraction for this evening will be the entertainment of the National minstrels at Union Hall.

The Fenian Brotherhood are making extensive preparations for their grand ball at City Hall on Monday evening.

POLICE COURT—Before Judge Morton.
SATURDAY, April 15.

David Whitney and John Barry were before the court this morning for drunkenness, and ordered to pay a fine and costs—the former of $8.30, and the latter of $8.55, and in default of payment were committed.

Munroe Day and Thomas Welch were before the court this morning for disturbing the peace, and ordered to pay a fine and costs each of $12.18.

Haydenville.—The old store in Haydenville, owned by Joel and Josiah Hayden, was burned at an early hour Friday morning. It was occupied by Henry Tileston with dry goods and groceries, together with the post office. Loss on the goods and building $7,500, without insurance.

Northampton.—The Supreme Court will commence a session next Tuesday, Judge Chapman presiding.

North Adams.—The North Adams *Transcript* "purified by fire," will again appear before the public in a few days. Success to brother Phillips.

Pittsfield.—The money orders drawn upon the Pittsfield post-office last quarter, amounted to $1,102, and the orders issued to $720.

Sheffield.—John B. Clark, 17 years of age, fell through a barn floor on Saturday, receiving injuries from which he died on Monday.—Arthur M. Tinker, son of the collector in the 10th district, has been chosen captain of the military company being formed at North Adams. Efforts were made to secure a person who had seen service, but no one would accept the honor.

Westfield.—The Westfield musical association held a concert on Fast day evening, which was enjoyed by a large and appreciative audience. Good taste was shown in the selection as well as in the rendering of the music.—The Westfield high school commences its summer term on Monday, with F. B. Brown, a member of the senior class of Williams college, for principal. Miss Moody continues as assistant.—The academy opens its summer term on Wednesday.

THE COUNTRY IN MOURNING!

Assassination of President Lincoln!

Attempt to Assassinate Secretary Seward and Son!

Death of the President this Morning.

Shocking Details of the Plot and Tragedy

J. WILKES BOOTH THE ASSASSIN.

[MR. SEWARD ALIVE, BUT IN A CRITICAL CONDITION.]

$10,000 Reward offered for the Assassin.

President Lincoln was shot by an assassin last evening, in his private box, at Ford's theatre. He went there with Mrs. Lincoln, Mrs. Harris and Major Rathbone to witness the performance of "Our American Cousin."

During the third act, and while there was a temporary pause for one of the actors to enter, a sharp report of a pistol was heard which merely attracted attention, but suggested nothing serious until a man rushed to the front of the President's box, waving a long dagger in his right hand and exclaiming *Sic Semper Tyrannis*, and immediately leaped from the box, which was in the second tier, to the stage beneath and ran across to the opposite side, making his escape amid the bewilderment of the audience from the rear of the theater, and, mounting a horse, fled. The screams of Mrs. Lincoln first disclosed the fact to the audience that the President had been shot, when all present rose to their feet, rushing toward the stage, many exclaiming, "Hang him! hang him!"

The following dispatches from Secretary Stanton furnish the particulars of this terrible tragedy:

WAR DEPARTMENT,
Washington, April 15, 1.30 a. m.

Maj.-Gen. Dix: This evening, at about 9.30 p. m., at Ford's Theater, the President, while sitting in his private box with Mrs. Lincoln, Mrs. Harris and Maj. Ratherburn, was shot by an assassin, who suddenly entered the box and approached behind the President.

The assassin then leaped upon the stage, brandishing a large dagger or knife, and made his escape in the rear of the theater. The pistol ball entered the back of the President's head and penetrated nearly through the head. The President has been insensible ever since it was inflicted, and is now dying.

About the same hour an assassin, whether the same or not is not known, entered Mr. Seward's apartments, and under pretense of having a prescription, was shown to the Secretary's chamber. The assassin immediately rushed to the bed and inflicted two or three stabs in the throat and two on the face. It is hoped that the wounds may not be mortal, but my apprehension is that they will.

Mr. Pownal, the nurse, alarmed Mr. Frederick Seward, who was in an adjoining room, and he hastened to the door of his father's room, where he met the assassin who inflicted upon him one or more dangerous wounds. The recovery of Frederick Seward is doubtful.

It is not probable the President will live through the night.

Gen. Grant and wife were advertised to be at the theater this evening, but he started for Burlington, N. J., at 6 o'clock this evening.

At a cabinet meeting yesterday, at which Gen. Grant was present, the subject of the state of the country and the prospect of a speedy peace was discussed. The President was very cheerful and hopeful, and spoke very kindly of Gen. Lee and others of the confederacy, and of the establishment of a government in Virginia.

All the members of the cabinet, except Mr. Seward, are now in attendance upon the President. I have seen Mr. Seward, but he and Frederick were both unconscious.

E. M. STANTON, Sec'y War.

WAR DEPARTMENT, Washington, 3 a. m.

Major Gen. Dix: The President still breathes, but is quite insensible, as he has been ever since he was shot. He evidently did not see the person who shot him, but was looking on the stage, as he was approached behind.

Mr. Seward has rallied, and it is hoped he may live.

Frederick Seward's condition is very critical. The attendant who was present was stabbed through the lungs and is not expected to live. The wounds of Major Seward are not serious.

Investigation strongly indicates J. Wilkes Booth as the assassin of the President. Whether it was the same or a different person that attempted to murder Mr. Seward remains in doubt.

Justice Carter is engaged in taking the evidence. Every exertion has been made to prevent the escape of the murderer. His horse has been found on the road near Washington.

E. M. STANTON,
Secretary of War.

The President was conveyed from the theater to a private residence, and a military guard placed in front of it. Messrs. Sumner, Colfax and Farnsworth, Judge Curtis, Gov. Oglesby of Illinois, General Meigs, Col. Hay, Surgeon-General Barnes, and a few personal friends, were around his bedside. The surgeons employed every possible effort of science and skill, but it was useless, the wound was mortal.

On examining the private box at the theater, blood was discovered on the back of the cushioned rocking chair, on the partition, and on the door. A common single-barreled pocket pistol was found on the carpet.

WAR DEPARTMENT,
Washington, April 15, 4 10 a. m.

To Maj.-Gen. Dix:

The President continues insensible, and is sinking.

Secretary Seward remains without change. Frederick Seward's skull is fractured in two places, besides a severe cut upon the head. The attendant is still alive, but hopeless. Major Seward's wound is not dangerous.

It is now ascertained with reasonable certainty that two assassins were engaged in the horrible crime, Wilkes Booth being the one that shot the President, and the other a companion of his whose name is not known, but whose description is so clear that he can hardly escape. It appears from a letter found in Booth's trunk that the murder was planned before the 4th of March, but fell through because the accomplice backed out until Richmond could be heard from. Booth and his accomplice were at the livery stable at 6 o'clock last evening, and left there with their horses about 10 o'clock, or shortly before that hour. It would seem that they had for several days been seeking their chance, but for some unknown reason it was not carried into effect until last night.

One of them has evidently made his way to Baltimore; the other has not yet been traced.

E. M. STANTON,
Secretary of War.

WAR DEPARTMENT,
Washington, April 15, 8 a. m.

To Maj. Gen. Dix:

ABRAHAM LINCOLN died this morning, at 22 minutes after 7 o'clock.

EDWIN M. STANTON,
Secretary of War.

WASHINGTON, April 15, 8.40 a. m.

President Lincoln died this morning at half-past seven o'clock. Maj. Gen. Augur, commanding the department of Washington, has offered a reward of $10,000 dollars to the party or parties arresting the murderer of the President, and the assassin of the Secretary of State and his son.

This morning at six o'clock there was no change in the condition of Secretary Seward.

The *Chronicle* says a letter found in J. Wilkes Booth's trunk identifies him as the murderer of the President.

WASHINGTON, April 15.

The Assassin of the President left behind him his hat and a spur. The hat was picked up in the President's box, and has been identified as one belonging to the suspected man. The spur was dropped upon the stage, and that also is identified as one procured at the stable where the same man hired a horse in the evening.

Two gentlemen who went to the Secretary of War to apprise him of the attack on Lincoln, met at the residence of the former, a man muffled in a cloak, who when accosted by them hastened away.

It had been Stanton's intention to accompany Lincoln to the theatre and occupy the same box, but a press of business prevented. It therefore seems evident that the aim of the plotters was to paralyze the country by at once striking down the head, heart and arm of the country.

As soon as the dreadful events were announced in the streets, superintendent Richards and assistants were at work to discover the assassin. In a few moments the telegraph aroused the whole police force of the city. Mayor Wallack and several members of the city government were soon on the spot, and every precaution was taken to preserve order and quiet. Every street was patrolled. At the request of Richards, Gen. Augur sent horses to mount the police. Every road leading out of Washington is strongly picketed, and every possible avenue of escape thoroughly guarded. A steamboat about to depart down the Potomac was stopped.

The *Chronicle* says, as it is suspected, this conspiracy originated in Maryland. The telegraph flashed the mournful news to Baltimore, and all the cavalry were immediately put upon active duty. Every road is picketed, and every precaution taken to prevent the escape of the assassin.

A preliminary examination was made by Richards and assistants; several persons were called to testify, and the evidence is conclusive to this point: The murderer of the President was John Wilkes Booth. His hat was found in the private box, and identified by several persons who have seen him within the last two days, and the spur which he dropped by accident after he jumped to the stage, was identified as one of those which he had obtained from the stable where he hired his horse.

This man Booth has played more than once at Ford's Theatre, and is, of course, acquainted with its exit and entrances, and the facility with which he escaped behind the scenes is easily understood.

The person who assassinated Secretary Seward left behind him a slouched hat and an old rusty navy revolver. The chambers were broken loose from the barrel as if done by striking. The loads were drawn from the chambers, one being but a rough piece of lead, and others smaller than the chambers, wrapped in paper, as if to keep them from falling out.

THE DEATH-BED OF THE PRESIDENT.

WASHINGTON, 11 o'clock a. m., April 15.

The *Star* extra says, at 20 minutes past 7 o'clock, the President breathed his last, closing his eyes as if falling to sleep, and his countenance assuming an expression of perfect serenity. There were no indications of pain, and it was not known that he was dead until the gradually decreasing respiration ceased altogether. Rev. Dr. Gurley immediately on its being ascertained that life was extinct, knelt at the bedside, and offered an impressive prayer, which was responded to by all present. Dr. Gurley then proceeded to the front parlor, where Mrs. Lincoln, Capt. Robert Lincoln, Mrs. John Hay, the private Secretary, and others, were waiting, where he again offered a prayer for the consolation of the family.

Surrounding the death-bed of the President were Secretaries Stanton, Welles, Usher, Attorney-General Speed, Postmaster, General Dennison, M. B. Field, Assistant-Secretary of the Treasury, Judge Otto, Assistant-Secretary of the Interior, Gen. Halleck, Gen. Meigs, Senator Sumner, R. F. Andrews, of New York, Gen. Todd, of Dacotah, John Hay, private secretary, Gov. Oglesby, of Illinois, Gen. Farnsworth, Mrs. and Miss Kenney, Miss Harris, Capt. Robert Lincoln, son of the President, and Doctors E. W. Abbott, R. K. Stone, C. D. Gaith, Newhall and Mr. Liebenman, and Secretary McCulloch.

They remained with the President until about 5 o'clock, and Chief Justice Chase, after several hours attendance during the night, returned early this morning.

Immediately after the President's death a cabinet meeting was called by Secretary Stanton, and held in the room in which the corpse lay. Secretarys Stanton, Welles and Usher, Postmaster-General Dennison and Attorney-General Speed were present. The results of th econference are as yet unknown.

The Assassins Endeavoring to Reach Canada.—Measures for their Capture.

WAR DEPARTMENT,
Provost Marshal General's Bureau,
Washington, D. C., April 15, 9.40 a. m.

It is believed that the assassins of the President and Secretary Seward, are attempting to escape to Canada. You will make a careful and thorough examination of all persons attempting to cross from the United States into Canada, and will arrest all suspicious persons. The most vigilant scrutiny on your part, and the force at your disposal, is demanded. A description of the parties supposed to be implicated in the murder, will be telegraphed you to-day, but in the meantime be active in preventing the crossing of any suspicious persons.

By order of the Secretary of War,
N. T. JEFFERS,
Acting Provost-Marshal General.

The Murderer of the President Caught.

A dispatch just received states that the murderer is caught, and that Frederick Seward is dead.

The Popular Grief.

NEW YORK, April 15, 9 a. m.

Intense sorrow is depicted on all countenances at the horrible events that occurred in Washington last night, and the grief of all good men is apparent everywhere at the demise of the President. No flags were hoisted in this city this morning until the state of the President was known, when they were all placed at half-mast. The people appear perfectly horrified, and the utmost rage is undoubtedly felt towards all known secessionists and rebel sympathizers.

NEW YORK, April 15.—noon.

All places of business are rapidly closing, and the streets are assuming a sombre hue. The various Hotels, New England rooms, post office, Custom House, and other public places are being draped.

The corn exchange met, passed suitable resolutions, ordered the building draped, and adjourned.

The commission of merchants have resolved to close their places of business. The gold room is closed. The regular board of brokers adjourned after passing appropriate resolutions.

All the banks of the city are closed and no commercial business whatever will be transacted.

An immense meeting of merchants and citizens is being held in Wall street, presided over by Mr. Draper. Speeches were made by Messrs. Butler, Dickinson and others. The crowd there is immense. Appropriate resolutions were submitted to the meeting and adopted, and a committee of thirteen eminent merchants and citizens appointed to go to Washington to attend the funeral of the President.

PHILADELPHIA, April 15.

The most intense horror is excited by the lamentable fate of the President. The city was decorated with flags and streamers, and every house gave evidence of preparation for the illumination fixed for Monday evening. The public joy gives place to mourning, and there are deep feelings of rage.

President Johnson Sworn in.

WASHINGTON, 15th—12 o'clock.

Andrew Johnson was sworn into office as President of the United States by Chief Justice Chase to-day at 11 o'clock. Secretary McCulloch and Attorney General Speed and others were present. He remarked: "The duties are mine; I will try to perform them, trusting in God."

Strength of Johnston's Army.—Surrender of Lee's Army.

NEW YORK, April 15.

The *Tribune's* Washington special says, Gen. Lee confessed to Gen. Grant that Johnston's entire force would not number more than 10,000. Lee surrendered less than 8000 fighting men to Grant, and less than 5000 muskets. Grant had 123,000 men under his command. Gen. Butler this evening wrote his resignation.

OUR ARMY IN VIRGINIA.

NEW YORK, April 15.

The *Tribune's* Burkesville Va. correspondence of the 11th, says our troops are all coming back to that point, to be ready for any new movement. Sheridan's cavalry left Appomattox Court House early on Monday morning. The rebel prisoners were all being paroled, and were starting for their homes in squads, companies and regiments.

WASHINGTON DISPATCHES.

WASHINGTON, April 14.

Gen. Grant left Washington this evening for New Jersey.

The rebel Gens. Ewell, Carse, Hunter, Barton, Kershaw, Dubois, Lions, and other officers, with about 500 rebel soldiers, arrived here to-day. Ewell and the other officers want to be admitted under the terms of Lee's surrender.

The employees of the Washington arsenal had a parade this evening in honor of the victories.

The government has advices that at latest dates the pirate Shenandoah was at Melbourne, undergoing alterations so as to work four more 8-inch guns. Her officers hoped to enlist a hundred more men.

Intimate friends of the President say he does not think it necessary to call an extra session of Congress, nor has he come to the determination to issue any proclamation to the people of the South.

Breckenridge Expected at Danville.

NEW YORK, April 15.

The Danville *Register* of the 5th says:—Breckenridge, the rebel Quartermaster, and Commissary Generals, and other officers, were expected to reach that city on horseback on the 6th.

Passes to Leading Rebels Revoked.

NEW YORK, April 15.

The *Herald's* Washington special says, President Lincoln yesterday revoked the passes to Hunter, Letcher, and other leading rebels to visit Richmond. The President was willing to have a convention held, but did not want it controlled by these men.

Gen. Banks en route for New Orleans.

ST. LOUIS, April 14.

Maj. Gen. Banks and family left this morning for New Orleans.

REBEL NEWS FROM ALABAMA.

NEW YORK, April 15.

A rebel dispatch dated Augusta, April 5th, indicates that Alabama is overrun by Union cavalry, under Wilson, and other commanders, all moving toward Mobile. Gen. McCook's force is reported to have burned Red Mountain Iron Works, and the village of Elaton, and tapped the telegraph at several places, sending dispatches to rebel officers. Two columns of Yankees are also reported advancing upon Columbus, Miss. The same dispatch says the rebel steamer Gertrude with a cargo valued at $2,000,000 was sunk in Spanish river near Mobile, on the 31st, by collision with the Natchez.

Successful Expedition in North Carolina.

NEW YORK, April 15.

The *Herald's* correspondence says an expedition lately went up the Chowan river, North Carolina, and captured Winton and Murfreesboro'. The ram which the rebels had been building at Halifax, has been destroyed. The ram Albemarle has been raised by our men, and found to be not seriously injured.

FROM NEW ORLEANS.

The Bombardment of Fort Spanish at Mobile.

NEW ORLEANS, Apr. 8, via Cairo Apr. 14.

A special dispatch to the New Orleans *Times*, from the Spanish Fort, dated April 5th, says, a furious fire was opened on the rebel forts last night from our entire line. During the bombardment a small magazine in the Spanish Fort exploded. The damage is unknown. Quiet prevailed on the 6th. Deserters report from 18,000 to 20,000 troops in and about Mobile, including all the State reserves, and about 2000 in Spanish Fort. The loss outside the Spanish Fort up to the 4th inst., amounted to about 500 killed and wounded. The rebels' loss exceeds ours.

Adjutant Gen. Thomas arrived at New Orleans on the morning of the 7th.

Mobile papers of the 4th inst. announces the capture of Selma, Ala., with 23 pieces of artillery, and a large amount of government property.

Jeff's Last Proclamation.

The Fall of Richmond a "Blessing in Disguise."

NEW YORK, April 16.

Jeff Davis on the 5th inst., issued from Danville, Va., a proclamation in which he says that Gen. Lee having "found it necessary to make such movements of his troops as to uncover Richmond, it would be unwise to conceal the moral and material injury" resulting to the rebel cause from its occupation by the national troops. Still, he endeavors to convince his deluded followers that even this event is a "blessing in disguise," as it would liberate Lee's army for more important operations. He announces his purpose to still maintain his bad cause, with his "whole heart and soul," and to "never submit to the abandonment of one State of the Confederacy." "Virginia," he declares, "shall be held and defended, and no peace ever be made with the infamous invaders of her territory."

FROM GOLDSBORO'.

Address of Gen. Sherman to his Troops.

NEW YORK, April 15.

The *Herald's* Goldsboro' correspondent says, Sherman's army commenced its advance on the 9th, moving in three columns, under Howard, Slocum and Schofield.

During the rejoicings over the news from Richmond, Gen. Sherman was called out by his troops, and addressed a few words to them, saying he was informed that Richmond had been captured, and Lee was flying in dismay. He said Grant wrote him that he was pursuing Lee, and he hoped he (Sherman) would press Johnston, which, said Sherman, I think we'll do. The soldiers cried "we will! we will!". Sherman told his soldiers that he did not mean to let Johnston have any rest.

Johnston has evacuated Raleigh, moving west, and leaving the town in possession of Hampton's cavalry. On the evening of the 10th a small force of Howard's mounted infantry were attacked by some rebel cavalry, who however, were soon dispersed, with a loss of one hundred men and two pieces of artillery.

The *Herald's* Goldsboro' correspondent has a report from Raleigh, saying, Gov. Vance will call the North Carolina legislature together to repeal the secession ordinance.

The *World's* Goldsboro' dispatch of the 10th says, the Raleigh *Confederate* of the 5th says, the city was sacked and fired by a mob of the lower classes. The Sixteenth Virginia Reserves were left to protect the people, but were unable to do so. The mob took possession of some of the larger warehouses and stores and robbed them.

The *Tribune's* Goldsboro' correspondence says, Sherman's army is moving, and the advance had already engaged the enemy's cavalry, which had hovered about our lines on the other side of Little river, driving them. Raleigh has been evacuated. A party of Kilpatrick's scouts had gone six miles beyond that place, finding no enemy.

Gen. Grant Returns to Washington.

PHILADELPHIA, April 15.

Gen. Grant arrived in this city late last night, on his way to Jersey, but was interrupted on his way to the Walnut street wharf, by a dispatch from the office of the associated press, and it is supposed he returned to Washington immediately.

Dr. Tittle.—The Doctor has made monthly visits to this city since last June, and we have seen certificates from well-known and reliable citizens of Columbia County, both ladies and gentlemen, setting forth most remarkable cures of chronic complaints, which had been pronounced beyond the reach of medical aid by some of our local physicians. Dr. Tittle's practice here has been eminently successful, and his rooms are crowded at every visit. We advise those who desire his counsel to go early and secure their chance.—*Hudson Gazette, April 6.*

Splendid Jewelry almost given Away.—In our advertising columns to-day will be found the announcement of Messrs. Newborn & Co., of New York, for the sale of an immense stock of Jewelry, &c., on the novel plan of One Dollar for each article. This is a new firm, and the fact that it is ambitious to build up a good name, makes it probable that customers will be liberally dealt with. It will cost but twenty-five cents to try the experiment any way.

Family Dye Colors.—Among the most popular and useful articles of the day are the Family Dye Colors, manufactured by the well known practical chemists, Howe & Stevens. So very superior are these dyes, so easily used, and withal afforded at so low a price, that they are literally getting into everybody's hands, just as the praises of their merits are on everybody's lips. Once tried, they become indispensable. In many parts of the country they have displaced all other substances and methods of dyeing. We, without any hesitation whatever, pronounce them the best dyes manufactured, while at the same time they are the cheapest in price. The ladies are particularly delighted with them.

Perry's Moth and Freckle Lotion.

Chloasma, or Mothpatch, (also called Liverspot), and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette, but they greatly mar the beauty of either; and any preparation that will effectually remove them *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. Perry, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared only by B. C. PERRY, Dermatologist, No. 49 Bond st., and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH AND FRECKLE LOTION.

Official from Sec. Stanton

THE INAUGURATION CEREMONY.

THE OLD CABINET RE-APPOINTED.

Wm. Hunter Appointed Acting Secretary of State.

Arrangements for the Funeral of President Lincoln.

WAR DEPARTMENT,
Washington, April 15, 3 p. m.

To Major Gen. Dix:

Official notice of the death of the late President Lincoln was given by the heads of the department this morning to Andrew Johnson, Vice President, upon whom the constitution devolved the office of President.

Mr. Johnson upon receiving this notice, appeared before the Hon. Salmon P. Chase, Chief Justice of the United States, and took the oath of office as President of the United States, and assumed its duties and functions. At 12 o'clock the President met the heads of departments in Cabinet meeting at the Treasury building, and among other business the following were transacted.

First, The arrangements for the funeral of the late President, was referred to the several secretaries as far as relates to their respective departments.

Second, William Hunter, Esq., was appointed Acting Secretary of State, during the disability of Mr. Seward, and his son Frederick Seward the Assistant-Secretary.

Third, The President formally announced that he desired to retain the present secretaries of departments of his cabinet, and they would go on and discharge their respective duties in the same manner as before the deplorable event that had changed the head of the government.

All business in the departments was suspended during the day. The surgeons report that the condition of Mr. Seward remains unchanged. He is doing well. There is no improvement in Mr. Frederick Seward. The murderers have not yet been apprehended.

E. M. STANTON,
Sec'y of War.

The Murderer still at Large.

WASHINGTON, April 15.

There is no confirmation of the report that the murderer of the President has been arrested.

Among the circumstances tending to fix a participation in the crime on Booth, were letters found in his trunk, one of which apparently from a lady, supplicated him to desist from the perilous undertaking in which he was engaged, the time not yet being ready to be sprung.

The extra *Intelligencer* says, from the evidence obtained it is rendered highly probable that the man who stabbed Mr. Seward and his son is John Surrat, of Prince George County, Maryland. The horse he rode was hired at Naylor's stable, on Fourteenth street. Surrat is a young man with light hair and goatee. His father is said to have been post-master of Prince George County.

Inauguration of President Johnson.

A Proclamation Expected Immediately.

WASHINGTON, April 15.

At an early hour this morning, Hon. E. M. Stanton, Secretary of War, sent an official communication to Hon. Andrew Johnson, Vice President of the United States, stating that in consequence of the sudden and unexpected death of the Chief Magistrate, his inauguration should take place as soon as possible, and requesting him to state the place and hour at which the ceremony should be performed.

Mr. Johnson immediately replied that it would be agreeable to him to have the proceedings take place at his rooms in the Kirkwood house, as soon as the arrangements could be perfected. Chief Justice Chase was informed of the fact, and repaired to the place in company with Secretary McCulloch of the treasury department, Attorney General Speed, F. P. Blair, senior, Hon. Montgomery Blair, Senators Foot of Vermont, Ramsay of Maine, Yates of Illinois, Stewart of Nevada, Hale of New Hampshire, and Gen. Farnsworth of Illinois.

At 11 o'clock the oath of office was administered by the Chief Justice of the United States, in his usual solemn and impressive manner.

Mr. Johnson received the kind expressions of the gentlemen by whom he was surrounded in a manner which showed his earnest sense of the great responsibilities so suddenly devolved upon him, and made a brief speech in which he said: "The duties of the office are mine; I will perform them; the consequences are with God. Gentlemen, I shall lean upon you; I feel that I shall need your support. I am deeply impressed with the solemnity of the occasion, and the responsibility of the duties of the office I am assuming."

Mr. Johnson appeared to be in remarkably good health and has a high and realizing sense of the hopes that are centered upon him. His manner was solemn and dignified, and his whole bearing produced a most gratifying impression upon those who participated in the ceremonies.

It is probable that during the day President Johnson will issue his first proclamation to the American people.

It is expected, though nothing has been definitely decided upon, that the funeral of the late President Lincoln will take place on or about Thursday next. It is supposed that his remains will temporarily be deposited in the Congressional cemetery.

The Condition of the President During the Night.—Notes of Dr. Abbot.

WASHINGTON, April 15.

The Feeling in Washington.

WASHINGTON, April 15.

The President's body was removed from the private residence opposite Ford's theater, to the Executive Mansion this morning at half-past nine o'clock, in a hearse, and wrapped in the American flag. It was escorted by a small guard of cavalry, Gen. Augur and other military officers following on foot.

A dense crowd accompanied the remains to the White House, where a military guard excluded the crowd, allowing none but persons of the household and the personal friends of the deceased to enter the premises.

Senator Yates and representative Farnsworth were among the number admitted. The body is being embalmed, with a view to its removal to Illinois. The flags over the departments and throughout the city are at half mast. Scarcely any business is being transacted anywhere either on private or public account.

Our citizens without any preconcert whatever, are draping their premises with festoons of mourning. Bells are tolling mournfully; strong men weep in the streets. The grief is wide-spread and deep, and in strange contrast to the joy so lately manifested over our recent military victories. This is indeed a day of gloom.

Reports prevail that Mr. Frederick W. Seward, who was kindly assisting the nursing of Secretary Seward, received a stab in the back. His shoulder-blade prevented the knife or dagger from penetrating his body. The prospects are that he will recover.

A report is circulated repeated by almost everybody that Booth was captured fifteen miles this side of Baltimore. If it be true as asserted that the War Department has received such information, it will doubtless be officially promulgated.

The government departments are closed by order and will be draped with the usual emblems of mourning. The roads leading to and from the city are guarded by military, and the utmost circumspection is observed as to all attempts to enter or leave the city.

Baltimore, Newark, New York, Albany, and other places are in mourning, and the gloom is general. The New York Legislature passed resolutions of regret, and adjourned till Tuesday next.

In Poughkeepsie, a woman who publicly exulted in the assassination of the President, together with a young man who interfered with a crowd trying to arrest her, were both put in jail by the authorities. The city is draped in mourning.

DR. D. J. TITTLE,

The Successful Indian Practitioner,

Will visit SPRINGFIELD, at the UNION HOUSE, on *Thursday, Friday* and *Saturday*, April 20th, 21st, and 22d, 1865, and PITTSFIELD, *Monday* and *Tuesday*, April 17th and 18th, at the AMERICAN HOUSE, for the treatment of the following

Chronic Diseases.

Neuralgia, Catarrh, Throat, Lungs, Liver, Stomach; Dyspepsia in all its varied forms, Piles, Gravel of the Kidneys or Bladder, and all Derangements of the Urinary Organs, Asthma, Rheumatism (inflammatory or chronic), Affections of the Spine, Sick or Nervous Headache, arising from a deranged state of the stomach or liver.

Epilepsy or Fits,

of every description, not proceeding from organic diseases or malformation.

Apoplexy or Paralysis,

From various causes, effectually cured.

IMPORTANT TO FEMALES.

All Uterine difficulties, so prevalent with the American female, Hemorrhage, Profuse or Obstructed Menstruation, Leucorrhoea or Whites, Prolapsus, Chronic Inflammation, Ulceration, Cancers and Tumors. Dr. Tittle rarely ever fails to cure these diseases where his directions are strictly adhered to.

N. B.—No examinations are made in cases of female difficulties which the most delicate and sensitive can object to. In many cases the Doctor can tell the disease, explain the symptoms and prescribe the proper remedies without asking a question.

Dr. TITTLE has received and is daily receiving the most flattering testimonials to his skill as a physician and the success of his practice.

All his cures are made by the use of pure vegetable medicines, leaving no injurious effects.

No charge for Consultation.

Read the following Editorial Notices and Testimonials.

Many who read these testimonials will find cases precisely like their own, which have been cured after the patient had given up all hopes, considering their diseases incurable and beyond the reach of medicine.

[From the Poughkeepsie Eagle of April 25th, 1863.]

IMPORTANT TO THE AFFLICTED.—A gentleman of this city, who was anxious to discover if Dr. Tittle's testimonials were bona fide, and if it would be safe to place himself under his treatment, wrote to Mr. R. B. Wing, an Albany merchant, and received the following reply, which is a flattering testimonial to the Doctor's success:

ALBANY, April 27, 1863.

Mr. ——, DEAR SIR: Yours of the 23d is at hand and contents noted. In reply, I will say that I was for several years troubled with dyspepsia and general derangement of the system. I tried all kinds of medicines that I could hear of, but could get no permanent relief. My tongue was coated the whole time, I could taste nothing, and took no comfort of life. I happened to come across Dr. Tittle, and he advised me to make a trial of his medicine. I did so steadily, and with the most gratifying results. I took them six months, and then left off cured, and have not had a return or symptom since. To say that I feel grateful to him only half expresses my feelings, and if you place yourself under his care, and follow his directions as I did, you need have no fears of the result. I am speaking of what I have experienced myself, and not from hearsay, and I stand ready at any time to give my testimony to the benefits alone received under Dr. Tittle's treatment. And I would further say, that a member of my family, who has been afflicted with violent sick headache for three years, has been entirely cured by his medicine in the space of four weeks.

Very respectfully your friend,
R. B. WING.

RHINEBECK, Dutchess Co., Aug. 21, 1862.

I have suffered for eight years with Catarrh, Dyspepsia and Constipation of the Bowels. Last fall my right limb became affected, which obliged me to keep my bed for five months, and for three months I have been obliged to use crutches as when you first saw me. I employed the best remedies I could obtain, and the best physicians, without getting any permanent relief, and settled into the conviction that my case was incurable—the same with my friends. when it was thought proper to make another attempt with Doct. D. J. Tittle, and by adhering strictly to his directions, the effects have exceeded all my expectations, even farther than any thing I had ever known in medicine. Three months' faithful attention to all the prescriptions has restored my health, to the astonishment of myself and friends; I can eat all kinds of food with satisfaction; I can walk and again enjoy life. Your grateful servant,

LORETTO PROSEUS.

BROOKLYN, October 1st, 1863.

DR. D. J. TITTLE—SIR:—If a testimonial from me will do you any good, you are at liberty to make such use of this as you may think proper. This is to certify that I was severely poisoned in both hands and arms; that they were ready to burst, and the poison so deeply infused in the blood that I became alarmed, and was very ill in consequence. Having heard of Doct. D. J. Tittle's skill and successful treatment in all severe cases, I was induced to try him, and can say that I am entirely cured in the short space of six weeks by following his directions as prescribed, and can cheerfully recommend him to any one that may need his services.

WOODSTOCK, LAKE HILL P. O., ULSTER CO., October 6th, 1863.

My son, Philip Purdy, twelve years of age, received a severe cut in the knee, and a few days afterwards he had a fall and struck his knee on the hub of a wagon, which caused the water from the joint to flow profusely for four weeks, so that in six hours' time it would wet through a large bolster. He was constantly falling away, and was as helpless as an infant, when a fever set in. To all human appearances, it seemed that he could live but a few days longer. Doct. D. J. Tittle was doctoring in my family. In consideration of what he had done for other members of my family, I put my son under his care, and can safely say that his treatment has saved my son's life and restored him his limb.

OLIVE, ULSTER CO., N. Y., Oct. 9th, 1863.

A FEMALE COMPLAINT OF SIX YEARS' STANDING. This is to certify that my wife has been troubled with a female weakness for upwards of six years. I have had several doctors to administer to her relief, but received no lasting benefit. Hearing of Doct. Tittle's skill in such diseases, I immediately applied to him, and am satisfied he has effected a lasting cure. Those who value their health and are afflicted in like manner, should avail themselves of his skill and practice.

LEVI T. SIMMONS.

ALBANY, Sept. 30th, 1863.

I feel it my duty to say something in favor of Dr. Tittle's new system of Botanic Practice. Having sent his medicine to a friend near Baltimore, for Chronic Diarrhoea, it had the desired effect. I have had several letters from him since taking the medicine, saying his health was better than it had been for three years previous.

A CASE OF CHRONIC RHEUMATISM OF FIVE YEARS' STANDING, THE PATIENT BEING OVER 70 YEARS OF AGE.—This is to certify that for five years past I have been so stiff with rheumatism that I have not been able to attend to business. Last April I employed Dr. Tittle, and in the space of two months he removed my difficulty so that I have been able to attend to my business, and I feel as well as I have for many years past. I can cheerfully recommend his practice, in my opinion, as superior to all others.

DAVID DROWER.

ALBANY, Oct. 29, 1863.

DOCTOR TITTLE—DEAR SIR:—Please accept my testimony for the great benefits which I have received at your hands. I have been troubled with weakness of my bowels and kidneys, likewise derangements of the stomach and liver; and have also been troubled with rheumatism in every joint in my body for seven years, and have been laid up a great deal of my time. All remedies prescribed gave only momentary relief, until I placed myself under your treatment, which has proved a great blessing in restoring me to health so that I can attend to my business. I can further say, according to my judgment from a fair trial in my family, that your treatment for cholera infantum has no equal.

ALBANY, Dec. 15, 1862.

My son was sorely afflicted with rheumatism, and nerves so excitable that no one could easily approach his bed, where he had been confined five weeks. I employed Dr. Tittle. I testify that I never saw diseases yield so readily; he soon recovered, and is now well. I reside in Albany, No. 77 Green street.

GEORGE L. MORGAN.

(From the Albany Morning Express, Aug. 7, 1863.)

THE FRUIT OF INDUSTRY AND PERSEVERANCE. Our worthy friend and fellow-citizen, Dr. D. J. Tittle, who has devoted nearly twenty years of his life to the study of natural, anti-poison remedies, has achieved a complete success, as is clearly demonstrated by testimonials which we publish elsewhere, and by hundreds of the same nature in his possession, from those who have been restored to health through his ministrations. He attacks the worst class of chronic diseases, aiming solely to aid nature, and meets with the most astonishing success.

WATERVILLE, June 10, 1863.

DOCT. TITTLE—DEAR SIR:—For the benefit of those suffering from Liver Complaint, I will add my testimony to your list. About four years ago I had a severe fit of sickness, which proceeded from the liver, and I have been suffering ever since until about a year ago I took your medicine, which gave me relief in a few months, and I am now enjoying good health. I am very respectfully yours,

ABRAM N. LADU.

NASSAU, RENSSELAER CO., N. Y., July 9.

Last September, my son, six years of age, was taken with a Diarrhoea, and to all appearances was troubled with worms, for which I had him doctored; but it did no good. He was taken with a violent fever, when the family physician was called to attend him, but all to no purpose; he was, to all appearance, going into the Dropsy. I had given up his recovery. He had been sick three months, when I saw Dr. Tittle. He gave him a dose of medicine which caused him to discharge over three quarts of water during the night, after which he gave him medicine to last a month, which has prevented the collection of water, and restored him to perfect health. I recommend all who are afflicted to his treatment, for I know it saved my child from an early grave. I have likewise taken the doctor's medicine for indigestion, and can say it is the best ever used.

JANE VICKERY.

BOYCEVILLE, (Town of Olive,) Ulster Co., N. Y., Oct. 8, 1863.

DOCTOR TITTLE—DEAR SIR:—In compliance with your request, I write to let you know what effect your medicines have had upon my wife. It has reduced her body to its natural size. She can wear her shoes as heretofore. Her appetite is good, and to all appearances she is as well as ever. I am, with respect, your most obedient.

CASPER BELL.

Upwards of three years my wife has been troubled with weak lungs, and for a year past has been getting so much worse, I became alarmed, and have done every thing I could for her relief. Nothing had the desired effect. After our family physician became satisfied his medicine was doing no good, he advised me to call another physician. Being acquainted with Dr. Tittle, and knowing what I did about some of his cures in extreme cases, I concluded to make a trial with him as my last hope. She took his medicine, faithfully following all his directions for four months, and I now see that she has so far recovered as to be out of danger, and with proper care and moderate exercise may be fully restored.

A. M. STREVELL.

The above was a bad case of consumption.

No. 28 Jackson st., ALBANY, Dec. 17, 1862.

DOCT. TITTLE—DEAR SIR:—Permit me to add to your list of certificates. My daughter became ill from exposure, obstruction of nature, so common to delicate females, was directly cured by the use of your vegetable medicine. I cheerfully recommend you to all who are afflicted in like manner.

MARGARET BRENON.

The following is an editorial copied from the *Daily Poughkeepsian*, Sept. 19, 1863:

IMPORTANT TO THE AFFLICTED.—We are gratified to learn that Doctor D. J. Tittle is meeting with great success in establishing his new Botanic practice of medicine. He is very successful in curing the most difficult chronic diseases without the aid of mineral or vegetable poisons. His treatment is simple, safe and effectual, and we have yet to hear of the first instance in which a patient has expressed dissatisfaction with his treatment. Some of his cures are really worthy of confidence.

POUGHKEEPSIE, Jan. 16, 1861.

I returned from the General Hospital in Baltimore discharged from service on account of disability, a member of the 128th regiment N. Y. S. volunteers, on the 14th day of November, 1861. Ira Russell, Surgeon in charge of that hospital, likewise Dr. Chas. H. Andrews, Surgeon of the regiment (128th) pronounced it a lung difficulty. In August, 1862, I put myself under Dr. Tittle's treatment, and am happy to say it proved effectual in restoring me to health. He pronounced it Catarrhal Bronchitis, Stomach, Liver and Kidney disease, and as he has cured me I take it for granted he was right.

AUGUST BANTLIN.

WEST GRANVILLE, Washington Co., N. Y.

DR. TITTLE—DEAR SIR:—About two years and a half ago I had a severe fit of sickness, which proceeded from the Liver and Throat. I consulted several Allopathic physicians, but to no effect—as they considered my case almost hopeless. Over a year ago I commenced taking your medicine, which gave me relief in a few months, and now my health is nearly as good as before taken sick.

ELLEN S. DONAHOE.

ALBANY, Dec. 3, 1863.

During the past year my health has been very much impaired, my stomach being very much deranged, and during the summer months, my bowels causing me much trouble. I finally had to give up my business, and doctor for the bowel complaint. The disease became chronic. In looking in the papers of the day, I noticed a testimonial of J. P. Seely to Dr. Tittle, for the curing of chronic diarrhoea in the case of a friend of his. I thought I would try his treatment, and I can say it had the desired effect in ten days, and I have had no return since. He told me he would remove the cause, and I found he was right, and feel well and hearty at present.

DANIEL BROWN.

Residence, No. 310 State St., Albany, N. Y. Employed on Boston Ferry Boat.

NEWBURGH, May 27, 1861.

For three years my wife has been suffering from Stomach, Liver and Kidney disease. The 21st day of April she went under Dr. Tittle's treatment, and to-day she enjoys as good health as ever she did. All former treatment has proved insufficient, giving only temporary relief.

ISAAC WOOD.

ALBANY, February 25, 1864.

Doctor D. J. Tittle has performed wonderful cures upon me—bleeding piles and chronic diarrhoea. I had called on other physicians, also made use of white oak bark. All proved injurious to me, but by using Doctor Tittle's remedies according to directions has effected a perfect cure. Words would fail to express my gratitude to the Doctor, and I wish the afflicted to all know of the virtue of his medicines. Yours respectfully,

H. P. TRAVIS.

I have been sore afflicted the past five years with Chronic Rheumatism, and have been confined to the house from two to ten weeks at intervals. I have suffered the most excruciating pain from ten to sixty hours, without food or sleep. Dr. Tittle being recommended by particular friends, I concluded to call on him, and have found the treatment effectual in every sense of the word. In three hours after taking the first prescription I was relieved of pain and enjoyed ten hours of refreshing sleep before the pain returned, which was soon subdued, and I have had my rest very regular ever since. I am now attending to my business, appetite good, eat whatever I crave without any inconvenience and sleep as sweetly as ever I did. I omitted to mention that my joints were very much swollen, those of the right knee, both elbows and hands, the latter considerably drawn out of shape. They are now perfectly natural. For nineteen years I have been a resident of Albany, and now reside at 64 Lark st., corner of Spring, where I will be happy to present myself as a living witness of Dr. T.'s superior skill and practice with rheumatism.

GEORGE B. WADLEIGH.

April 16, 1864.

NEWBURGH, May 29, 1861.

DR. TITTLE—DEAR SIR: Your prescription for Piles has had the desired effect. I am satisfied it has wrought an effectual cure. Yours truly,

T. B. CRANS.

Florence Sewing Machine.

SPECIAL NOTICE.

We respectfully invite ladies and gentlemen who are in want of a good Sewing Machine for family use or cloth work of any kind, to examine the FLORENCE before purchasing elsewhere.

This notice is intended to caution the public in selecting a Sewing Machine, not to believe all that is told them by those engaged in the sale of the different Sewing Machines.

There is not a day passes but what we have the pleasure of hearing from customers what has been told them from different Sewing Machine offices in this city, and we feel very thankful for the compliments bestowed upon the Florence Machine.

The following are some of them: "Very complicated"—"come all to pieces in three weeks"—"must be a good engineer to work them"—"finally, it is a perfect humbug."

Now, if these statements were true there would not be any necessity of stating them to every person that visits their place of business; but they are not true, but false in every respect, which we are prepared to prove to the public at any time.

We do not propose to get a living by misrepresenting other Sewing Machines sold in this market; there are a number of good Sewing Machines for sale by other parties; but we claim that the FLORENCE is a more modern machine, is less liable to get out of order, and has several improved patents, making it far superior to any other machine now in use.

Call and examine the FLORENCE at room No. 12, BARNES' BLOCK.

FINANCIAL.

U. S. 7-30 LOAN.

By the authority of the Secretary of the Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three-tenths per cent. interest, per annum, known as the

SEVEN-THIRTY LOAN.

These Notes are issued under date of June 15th, 1864, and are payable three years from that time, in currency, or are convertible at the option of the holder into

U. S. 5-20 Six Per Cent.

GOLD-BEARING BONDS

These bonds are worth a premium which increases the actual profit on the 7-30 loan, and its *exemption from State and municipal taxation adds from one to three per cent. more*, according to the rate levied on other property. The interest is payable in currency semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to

One cent	per day	on a	$50	note.
Two cents	"	"	$100	"
Ten	"	"	$500	"
20	"	"	$1000	"
$1	"	"	$5000	"

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions, and the notes forwarded at once. The interest to 15th June next will be paid in advance. This is

THE ONLY LOAN IN MARKET

now offered by the Government, and it is confidently expected that its superior advantages will make it the

Great Popular Loan of the People.

Less than $300,000,000 of the Loan authorized by the last Congress are now on the market. This amount, at the rate at which it is being absorbed will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

RELIGIOUS ITEMS.

Rev. Thomas K. Beecher of Elmira, N. Y., and a brother of Henry Ward Beecher, recently gave an address in which he advocated the free use of ale and wines as a prophylactic for intemperance. As a consequence, carousing young men drink his health in pewter mugs and the boys of the school have taken to ale drinking. The community are greatly scandalized.

The Boston *Congregationalist* says there is a scarcity of ministers in that denomination.

Rev. William C. Anderson, D.D., late of San Francisco, has accepted the pastorate of the First Presbyterian Church in Cincinnati.

Rev. J. H. Burtis has resigned his position as associate secretary of the American Sunday School Union.

Rev. George H. Coffey was installed March 15th as pastor of the Congregational Church in Jackson, Mich.

The "*Christian Secretary*" (Baptist), asks the question—Is Dr. Neale dead, inasmuch as his friends are industriously defending him from the imputation of occupying "loose communion ground," while he remains mum?

On Sunday, April 2d, the Hon. Amos Kendall, formerly Postmaster-General, was baptized by Rev. Mr. Kennard, in the absence of the pastor, Rev. Mr. Howlett, into the fellowship of the Calvary Baptist church, in Washington.

At South Abington, Mass., Rev. G. B. Darrow has recently baptized thirty-eight, and about as many more have professed a hope in Christ.

Dr. Fish of Newark, has declined the call of the Tabernacle church, Philadelphia.

The divines, not to be outdone by the politicians who are busily at work trying to restore a political union, are agitating the question of a Christian union, and a series of public discussions are now going on. A meeting was held at Brooklyn on the 4th inst.; one in New York on the 6th; another in Philadelphia on the 14th; another is to be in Cincinnati on the 20th, another in Chicago the 27th.

Intelligence has just been received of the death of Rev. Austin H. Wright, D. D., of the Nestorian mission, (American Board,) and of Mrs. W. Frederick Williams, of the Eastern Turkey mission.

Rev. Charles Starr, of Oneida Conference, was one of the victims of the fearful railroad disaster which occured near Oriskany, N. Y., on Thursday, March 23d. He appears to have been killed instantly, as he was found dead immediately after the accident.

Rev. Calvin Fairbank, who was for fifteen years in the Kentucky Penitentiary, is now at Williamsburg, Mass., and he will visit Boston and Charleston between the 20th of April and the 15th of May.

Rev. R. L. Collier, who has preached three years at the Wabash Avenue Church in Chicago, Ill., has been transferred from the Rock River to the New Jersey Conference, and stationed at one of the Methodist churches in New Brunswick, N. J. He is succeeded in his former church by Rev. R. M. Hatfield.

The Rev. Albion Fellows, of Indiana Conference, died on March 2, in the 38th year of his age, and the 11th of his ministry.

HARVEY'S CHRONO THERMAL FEMALE PILLS

IMPORTANT TO LADIES.

The Private Medical Adviser,

An invaluable treatise of 64 pages, by

DR. JOHN HARVEY.

Published for the benefit of the sex.

On receipt of **TEN CENTS**, it will be sent post-paid, in a sealed envelope, to all who apply for it.

It gives a concise description of all the diseases peculiar to females, together with means of cure, and treats of *Conception, Pregnancy, Miscarriage, Sterility, Sexual Abuses, Prolapsus Uteri, Female Weakness, Consumption, &c.*, and much other valuable information not published in any other work.

Every lady should procure a copy without delay.

Three Editions, 50,000 each,

have already been published and distributed this year.

HARVEY'S FEMALE PILLS,

the most infallible and popular remedy ever known for all diseases of the female sex. They have been used in many thousand cases with unfailing success, and may be relied on in every case for which they are recommended, and particularly in all cases arising from

Obstruction, or Stoppage of Nature,

no matter from what cause it arises. They are effectual in restoring to health all who are suffering from *Weakness and Debility, Uterine Discharges, Nervousness, &c., &c.*, and they

ACT LIKE A CHARM!

in strengthening and restoring the system. Thousands of ladies who have suffered for years, and tried various other remedies in vain, owe a renewal of their health and strength wholly to the efficacy of

DR. HARVEY'S FEMALE PILLS.

They are not a new discovery, but a long-tried remedy—the celebrated

DR. JOHN HARVEY,

one of the most eminent physicians, prescribed them for many years in his private practice, and no physician was more truly popular or widely known than he was in the treatment of

FEMALE DIFFICULTIES.

All who have used DR. HARVEY'S FEMALE PILLS recommend them to others. *Nurses* recommend them—*Druggists* and *Dealers* recommend them in preference to other medicines, because of their merits. No lady objects to take them, for they are elegantly

Prepared by an Experienced Chemist.

They are perfectly harmless on the system, may be taken at any time with perfect safety; *but during the early stages of pregnancy they should not be taken, or a miscarriage may be the result.* They never cause any sickness, pain or distress.

Each box contains sixty pills and full directions for use.

PRICE ONE DOLLAR.

☞ *Cut this notice out if you desire Dr. Harvey's Pills or Book, and if you cannot procure them of your druggist, do not take any other, for some dealers who are unprincipled will recommend other Female Pills, which they can make a larger profit on—but enclose the money and send direct to*

The property of this Company is located on "Coal Run Creek," in Meigs County, State of Ohio, about 10 miles from Athens, containing one hundred and five acres of land. A large number of wells are successfully worked in the vicinity, some of which are paying handsome dividends. This Company propose to commence operations at once, and entertain no doubt that at an early day they will be able to pay a handsome per centage on the investment. The known ability and commercial standing of the officers of this Company afford a sufficient guaranty that the affairs will be conducted in a manner to secure the confidence of those who are disposed to invest in it.

The tract of land adjoining the property of this Company has passed into the hands of capitalists, who have sent out an experienced superintendent to commence operations, and their first order for machinery was $15,000. Our property has been examined under instructions from Dr. A. A. Hayes, State Assayer of Massachusetts, who pronounces the coal, which is in abundance, to be of the best quality, yielding eighty gallons of oil to the ton, and has no doubt, from the location and position of the property, that it will be found valuable in the production of oil. Most companies have to pay very high prices for their coal, all of which we save; oil can be manufactured from the coal upon the property, at a cost not exceeding *ten cents* per gallon, and it is proposed to commence the manufacture in connection with the sinking of wells. One dollar will buy a share of this stock, which is the par value, and all benefits derived from the lands, either by sales of oil, land, or products of any kind, are to be divided among the stockholders and in addition, $200,000 worth of valuable, useful and desirable property will be given to the stockholders, as soon as all the shares are disposed of. The Company adopt this course for the purpose of disposing of the stock at the par value, rather than to sell it as many companies do, at a subscription price, which is usually one-half. Thus, it will be perceived that every stockholder owning ten shares, for example, will be sure to realize a handsome dividend when the property is divided; a plan which is entirely honorable, and in all respects perfectly legal.

The property to be distributed among the stockholders will be equal to any in the market, and will consist of the following described articles:—

$5000 to purchase a HOUSE in Boston or vicinity.
$5000 in U-S 5-20 BONDS, CERTIFICATES of $500 each.

SO says the rebel Lee. This being the case, prices must come down, and MORSE claims that for several reasons he is *peculiarly* adapted to lead the down movement in

Boots and Shoes.

1st. Being naturally of a modest turn, he never could get up so high as some.

2d. Just starting, like any other Yankee he has made such prices as would *bring trade*; hence has got his hand in at selling low.

Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS,
Incident to Married and Single Ladies;
SECRET AND DELICATE DISORDERS;

Mercurial affections; Eruptions and all Diseases of the Skin; Ulcers of the nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth and the more advanced, at all ages, of

BOTH SEXES, SINGLE OR MARRIED.

DR. L. DIX'S PRIVATE MEDICAL OFFICE,

21 Endicot Street, Boston, Mass.,

is so arranged that patients never see or hear each other. Recollect, the ONLY entrance to his Office is **No. 21**, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX *boldly asserts* (and it cannot be contradicted, except by Quacks, who will say or do anything, even perjure themselves, to impose upon patients) that he IS THE ONLY REGULAR GRADUATE PHYSICIAN ADVERTISING IN BOSTON. SIXTEEN YEARS engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to STRANGERS AND TRAVELLERS.

To avoid and escape Imposition of Foreign and Native Quacks, *more numerous* in Boston than other large cities, DR. L. DIX proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE! be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of FOREIGN AND NATIVE QUACKS, who know little of the nature and character of Special Diseases, and LESS as to their cure. Some exhibit forged diplomas of Institutions or Colleges, which never existed in any part of the world; others exhibit diplomas of the dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by QUACK NOSTRUM MAKERS, through false certificates and references, and recommendations of their medicines *by the dead*, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than is cured," and those not killed constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.—Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT. Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet regardless of the life and health of others, there are those among them who will even perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

TO THE LADIES. The celebrated DR. L. DIX particularly invites all ladies who need a *Medical or Surgical* adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

DR. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also, all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

IMPORTANT

TO ALL

INVALIDS.

The great value of

Iron as a Medicine,

is well known and acknowledged by all medical men. The difficulty has been to obtain such a preparation of it as will enter the circulation and assimilate at once with the blood. This point, says Dr. Hays Massachusetts State Chemist, has been attained in the Peruvian Syrup, *by combination in a way before unknown.*

The Peruvian Syrup

is a PROTECTED solution of the PROTOXIDE OF IRON, A NEW DISCOVERY IN MEDICINE that strikes at the Root of Disease by Supplying the blood with its Vital Principle or Life Element—IRON.

The Peruvian Syrup

cures Dyspepsia, Liver Complaint, Dropsy, Fever and Ague, Chronic Diarrhœa, Loss of Energy, Low Spirits

The Peruvian Syrup

infuses Strength, Vigor and New Life into the system, and builds up an "Iron Constitution."

The Peruvian Syrup

cures Nervous Affections, Female Complaints, Scrofula, Boils, Scurvy, and all diseases of the Kidneys and Bladder.

The Peruvian Syrup

is a SPECIFIC for all diseases originating in a BAD STATE OF THE BLOOD, or accompanied by Debility or a Low State of the System.

"To all the WEAK, the WORN, the WEARY"

The following *voluntary* testimony is from the Boston Recorder of Aug. 12th, 1864.

"The Peruvian Syrup is one of the few advertised medicines which is worthy of notice, and a personal trial of it for many years has shown us that it possesses all the qualities claimed by its proprietors. As a tonic in cases of impaired health or weakened constitutions it has no superior. Unlike most Tonics and Bitters, it is entirely free from alcohol, and therefore its energizing effects are not followed by corresponding reaction. It will be found far superior to wine or brandy in all cases where these have been prescribed for weakness and debility. The certificates of Dr. Hayes, state Assayer of Mass., and of Dr. Chilton, the celebrated Chemist of New York, agree that there is in its composition no mineral or vegetable poison, or objectionable substance whatever. Its principal ingredient is a salt of the Protoxide of Iron, so combined and protected as to form a durable and palatable medicine. We can most unhesitatingly recommend it to all the weak, the worn, the weary. We make these remarks voluntarily, and of our own prompting, having richly experienced its benefits."

Thousands have been changed by the use of this remedy, from weak, sickly, miserable creatures, to strong, healthy and happy men and women, and Invalids cannot reasonably hesitate to give it a trial.

Pamphlets containing certificates of cures, and recommendations from some of the most eminent Physicians, Clergymen and others, will be sent FREE to any address.

The time for my being in BALTIMORE and PITTSBURGH will be seen in the daily papers of those cities.

The History of Dr. Schenck's own Case, and how he was cured of Consumption.

Many years ago, whilst residing in Philadelphia, I had progressed gradually into the last stage of Pulmonary Consumption. All hopes of my recovery being dissipated, I was advised by my physician, Dr. Parrish, to remove into the country. Moorestown, New Jersey, being my native place, I was removed thither. My father and all his family had lived and died there—and died of Pulmonary Consumption. On my arrival I was put to bed, where I lay for many weeks in what was deemed a hopeless condition. Dr. Thornton, who had been my father's family physician, and had attended him in his last illness, was called to see me. He thought my case entirely beyond the reach of medicine, and decided that I must die, and gave me one week to arrange my temporal affairs. In this apparently hopeless condition, I heard of the remedies which I now make and sell. It seemed to me that I could feel them working their way, and penetrating every nerve, fibre, and tissue of my system.

My lungs and liver put on a new action, and the morbid matter which for years had accumulated and irritated the different organs of the body, was eliminated, the tubercles on my lungs ripened, and I expectorated from my lungs as much as a pint of yellow offensive matter every morning. As this expectoration of matter subsided, the fever abated, the pain left me, the cough ceased to harass me, and the exhausting night-sweats were no longer known, and I had refreshing sleep, to which I had long been a stranger. My appetite now began to return, and at times I found it difficult to restrain myself from eating too much; with this return of health, I gained in strength, and now am fleshy. I am now a healthy man, with a large healed cicatrix in the middle lobe of the right lung and the lower lobe hepatized with complete adhesion of the pleura. The left lung is sound, and the upper lobe of the right one is in a tolerably healthy condition.

Consumption at that time was thought to be an incurable disease by every one, physicians as well as those who were unlearned in medicine—especially such cases as were reduced to the condition I was in. This induced many people to believe my recovery only temporary. I now prepared and gave the medicines to consumptives for some time, and made many wonderful cures, and the demand increased so rapidly, that I determined to offer them to the public, and devote my undivided attention to lung diseases. In truth, I was next to forced to it, for people would send for me, far and near, to ascertain whether their cases were like mine.

For many years, in conjunction with my principal office in Philadelphia, I have been making regular professional visits to New York, Boston, Baltimore, and Pittsburg.

For many years past, I have made as many as five hundred examinations, weekly, with the "Respirometer." For such examinations my charge is three dollars, and it enables me to give each patient the true condition of his disease, and tell him frankly whether he will get well.

The great reason why physicians do not cure Consumption is, that they try to do too much; they give medicines to stop the cough, to stop the night-sweats, hectic fever, and by so doing they derange the whole digestive system, locking up the secretions, and eventually the patient dies.

The Pulmonic Syrup is one of the most valuable medicines known. It is nutrient, powerfully tonic and healing in itself. It contains no opium, yet it loosens the phlegm in the bronchial tubes, and nature throws it off with little exertion; one bottle frequently cures an ordinary cold; but it will be well first to take a dose of Schenck's Mandrake Pills to cleanse the stomach. The Pulmonic Syrup is readily digested and absorbed into the blood, to which it imparts its healing properties. It is one of the best preparations of iron in use; it is a powerful tonic of itself; and when the Seaweed Tonic dissolves the mucus in the stomach, and is carried off by the aid of the Mandrake Pills, a healthy flow of gastric juice, good appetite, and a good digestion follow.

The Seaweed Tonic is a stimulant, and none other is required when it is used. It is pure and pleasant; no bad effects like when using Bourbon whisky, which disorders the stomach, torpors the liver, locks up all the secretions, turns the blood into water, dropsy sets in, and the patient dies suddenly.

Bourbon whiskey is recommended now-a-days by almost every physician. Many patients that visit my rooms, both male and female, are stupefied with this poison. The relief is temporary. If they cough, they take a little whisky; if they feel weak and feeble, they take a little whisky; if they cannot sleep, they take a little whisky, and they go on in this way, requiring more and more, until they are bloated up and imagine they are getting fleshy. The stomach, liver, and digestive powers are completely destroyed, and they lose their appetite for food. No one was ever cured of consumption by this process, where cavities have been formed in the lungs. A little stimulant is frequently beneficial to consumptives, such as pure brandy or good wines—in many cases London porter or brown stout, in moderate quantities; but Bourbon whisky hastens on, instead of curing consumption.

The Seaweed Tonic produces lasting results, thoroughly invigorating the stomach and digestive system, and enabling it to eliminate and make into healthy blood the food which may be used for that purpose. It is so wonderful in its effects that a wine glass full will digest a hearty meal, and a little of it taken before breakfast will give a tone to the stomach which few medicines possess the power of doing.

The MANDRAKE PILLS may be taken with entire safety by all ages and conditions, producing all the good results that can be obtained from calomel, or any of the mercurial medicines, and without any of their hurtful or injurious results. They carry out of the system the fecal and worn-out matters loosened and dissolved by my Seaweed Tonic and Pulmonic Syrup. It will be seen that all three of my medicines are needed in most cases to cure Consumption.

DR. VELPAU'S FRENCH PILLS.

Ladies, take Particular Notice.

THE REAL VELPAU FEMALE PILL.

[WARRANTED FRENCH.]

THESE PILLS, so celebrated many years ago in Paris for the relief of female irregularities, and afterward so notorious for their criminal employment in the practice of abortion, are now offered for sale for the first time in America. They have been kept in comparative obscurity from the fact that the originator, Dr. Velpau, is a physician in Paris of great wealth and strict conscientious principles and has withheld them from general use, lest they should be employed for unlawful purposes. In overcoming Female Obstructions, Falling of the Womb, Whites, Green Sickness, Suppression, Retention, or Immoderate Flow of the Monthly Discharges, they seem to be truly omnipotent, bursting open the flood gates from whatever cause may have stopped them; but they are offered to the public only for legitimate purposes, and all agents are forbidden to sell them when it is understood that the object is unlawful. Married ladies should never take them when there is any reason to believe themselves pregnant, for they will be sure to produce a miscarriage.

These pills are entirely safe under all circumstances, being composed entirely of substances from the vegetable kingdom.

Each box has the coat of arms of the City of Paris stamped on the box, with the words "Trade Mark" in French, to counterfeit which is a misdemeanor, and all persons will be dealt with according to law.

☞ Full directions accompany each box.

Ladies can obtain a box sealed from the eyes of the curious, by inclosing One Dollar and six postage stamps to any respectable druggist, or to O. G. STAPLES, General Agent for the United States, Watertown, N. Y.

For sale by H. Hutchins, John Hooker, Alden Brewster, Orrin Skinner, Frost & Dickinson, Springfield; F. F. Kent, Chicopee. n2

MANHOOD

AND the Vigor of Youth Restored in four weeks, by DR. RICORD'S ESSENCE OF LIFE. Dr. Ricord, (of Paris) after years of earnest solicitation, has at length acceded to the urgent request of the American public, and appointed an Agent in New York, for the sale of his valued and highly prized Essence of Life. This wonderful agent will restore manhood to the most shattered constitutions, in four weeks; and, if used according to printed instructions, failure is impossible. This life-restoring remedy should be taken by all about to marry, as its effects are permanent. Success, in every case, is certain.

Dr. Ricord's Essence of Life is sold in cases, with full instructions for use, at $3, or four quantities in one for $9, and will be sent to any part, carefully packed, on receipt of remittance to his accredited agent. Circular sent free on receipt of four stamps.
